IT'S A WHOLE NEW WORLD

Covid-19 induced turnover

Downsizing workforce

Doubling workforce

New responsibilities for current employees

Limited resources

- Lead time shrinkage
- Supply chain delays
- Cash

TODAY I'M GOING TO TALK ABOUT SAFETY BASICS

OSHA

Ladders and Walking Working
Surfaces

Industrial Hygiene – noise, chemical
ventilation

PPE

Respiratory Protection

LADDERS

LADDERS LAST

Train employees on safe work rules with a portable ladder

Ensure ladders are proper type, rating and condition

Build or utilize permanent platforms

STAIRWAYS

An abstract graphic featuring five dark gray rectangular steps arranged in a diagonal line from the bottom-left to the top-right. A thin white vertical line is positioned to the right of the word 'STAIRWAYS', extending from the top of the word down to the bottom of the frame. The word 'STAIRWAYS' is written in a large, white, sans-serif font, centered horizontally and partially overlaid by the steps and the vertical line.

WALKING AND WORKING SURFACES

Revised in 2016

More specific criteria for ladders, stairs, dockboards, scaffolds and fall protection

Start with an inventory of what you have

Identify opportunities for changes

SUBPART D REQUIREMENTS

INDUSTRIAL HYGIENE

A photograph of a large industrial facility, likely a refinery or chemical plant, at night. The scene is illuminated by numerous yellow lights from the facility's structures, creating a stark contrast against the dark blue twilight sky. In the foreground, there is a dark, flat area that appears to be a field or a road. A line of small, dark evergreen trees runs horizontally across the middle ground, separating the foreground from the industrial complex. The facility itself is composed of various tall distillation columns, large storage tanks, and a complex network of pipes and walkways. The overall atmosphere is industrial and somewhat somber due to the nighttime setting.

NOISE

What to do if...

HEAT STRESS

OSHA PROPOSED A NEW NEP

OSHA is working to formalize a National Emphasis Program (NEP) and launching rulemaking process on heat hazard cases.

OSHA is working toward the NEP to take effect before the Summer of 2022

Priority on heat related interventions and workplace inspections on days when heat index exceeds 80° F
